History of the Rich Find as Related by One of the Discoverers-The Price Paid by Pardee.

Missoulian: The news of the rich quartz discovery on Flat creek and the bonding of the property to J. K. Pardee has been the subject of a great deal of comment. The first reports of the bonanza were underestimated rather than over-estimated. On Saturday, Frank Hail, one of the original discoverers of the lead, gave more reliable and definite information than was before reported. He said the vein was found Aug. 26 by D. R. S. Frazier, W. A. Jones, and himself. The exact location is on Flat creek, four and three-fourths miles from the Mullan road and five and three-fourths miles from the lies from Superior.

The original discoverers are turn of \$157.50. fourths miles from Superior.

fourths miles from Superior.

The ores sampled gave a return of \$157.50 in silver and 53½ per cent. lead. The prospectors were satisfied at the time of the discovery that they had "struck it rich," and what little work has been done has more than confirmed their opinion. The rich vein is from three to five feet in width, and beside it is a vein of carbonates three feet in width. The width of the entire mineral matter is over forty feet.

The company have two locations, the principal one being called the Iron mountain, the other being known as the Iron Tower. Cœur d'Alene capitalists made vain efforts during the fall to get hold of the properties, but the prospectors hung on for a big sum. Hall is a friend of Pardee's, and gave that gentleman a chance to buy into the property.

Mr. Hall refused to state the terms of the deal, but stated that Frazier, Jones and his wall resily receive much more than one.

Mr. Hall refused to state the terms of the deal, but stated that Frazier, Jones and himself will receive much more than one hundred thousand dollars. It was inferred from his remarks that they retain a certain interest in the mine. Pardee represented S. T. Hauser, J. K. Wells, A. A. McDonald and others. The development of the mine is to commence immediately and two shifts will be employed as soon as arrangements can be completed. There is a little ore on the dump now which is valued at \$7,000. A tunnel is to be run in on the vein.

Letters for the following persons remain uncalled for at the Helena, M.T., postoffice on Jan. 10. In calling for them please say 'advertised."
